

# Read The Girl Who Dared to Think By Bella Forrest

An unforgettable tale brimming with suspense, mystery and romance - The Girl Who Dared to Think will thrill fans of The Gender Game, Divergent & The Hunger Games... How do you fight an enemy when they're inside your mind? A gargantuan glass-walled tower looms over a deadly wilderness. They say it's all that's left. The Tower's survival is humanity's survival, and each must serve it faithfully... Twenty-year-old Liana Castell must be careful what she thinks. Her life is defined by the number on her wristband - a rating out of ten awarded based on her usefulness and loyalty to the Tower, and monitored by a device in her skull. A device that reports forbidden thoughts. Liana is currently a four, the lowest possible acceptable score, and despite her parents' perfect scores of ten, she struggles to increase it. Rebellious ideas come all too easily, and resentment seems part of her being. She is an overseer-in-training, but her future will be dark if she cannot raise her worth... Threes require drug treatment. Twos are isolated. Ones disappear. When Liana's worst nightmare comes to pass and she drops to a three, desperation spurs her down a path few dare to tread. A chance encounter with a cocky young man whose shockingly dissident attitude toward the Tower couldn't possibly have earned him the perfect "ten" on his wrist, sets her on a trail to save herself - even at the risk of dropping lower. Stalking the young man seemed like a simple enough task, but after events take an unexpected twist, Liana finds herself taking a treacherous dive into the darkest depths of the Tower... and the decades' old secrets buried within. In a society where free thinking can make you a criminal, one girl dares to try... Buy now! \*Beware of spoilers in the reviews below that are without spoiler alerts\*

Customer Reviews Most helpful customer reviews 0 of 0 people found the following review helpful.  
Fairly good By Briana White It's got a great premise, intriguing plot, and likeable characters. To be

honest, it needs a little work though. There are several plot holes and quite a few repetitive or slow parts. Don't get me wrong, I love "slow burn" books, but this is different. 3.5 stars but rounding up. I think it's worth reading if you can ignore the imperfections. 0 of 0 people found the following review helpful. Exciting By EngineerInventorProgrammer What a great book! I loved Gender Games and this book did not disappoint! Can't wait for the next installment. 0 of 0 people found the following review helpful. A winner of a book By Linda Kovacevich Such a great story line and characters. Love reading books that make you think and have so much imagination. See all 188 customer reviews...
