Bloodlust and insanity rule my existence. As a fierce drakoni warrior, this strange new world I find myself in eats at my mind until there is nothing left. There is no light or clarity...until she arrives. I save her life, plucking her from the sky. From that point on, she is mine. But the human I have chosen for my mate - Sasha - is fragile and wounded. She does not trust me and fears my presence. I will not give up, though. I will do anything to give her my fires and bond us both in body and spirit. How can I convince her that I want nothing more than her happiness if she will not let me touch her? How does a dragon woo a human?

Interesting storyline & world build developing By Erma I enjoyed this story - I wasn't as sucked in as I'd hoped. The characters were nice but not compelling - not dimensional enough(?) or maybe not kick-\*ss enough. Interesting action, some humor, plenty of sensitive sex scenes - almost too many sex scenes. The world build is developing - which I like. I felt a bit frustrated by the lack of preparedness the heroine displays - it might be my perception of the timeline - seems like a lot of time is passing while she lolls around. You'd think that in uncertain times, she'd have a few backpacks packed with some of the hard to find essentials & hidden in some stashes in the vicinity in case of wandering scavengers. I also don't understand why neither heroine (book 1 or 2) have been exploring further out - for safer digs, more supplies etc. However, I'm very intrigued by the newest secondary characters - Emma & the imprisoned dragon - I'm very eager for that one to come out. 3 of 3 people found the following review helpful.
