detective story set in Edinburgh at the end of the 19th century. Murders to be solved without all the gadgets and gizmos of modern crime scene investigation and no DNA!! I really wanted to like Detective Inspector Hamilton and sometimes I did, but he failed my 'would I like to be stuck in a lift with this person' test with his frequent Shakespeare quotes. I did rather enjoy the cheeky chappy that was the urchin Derek McNair. I expected a slow pace but I'm sorry to say I found this dragged and I didn't get the build of tension that I was expecting. I received an ARC of Edinburgh Twilight via NetGalley and my thanks to the publishers Thomas & Mercer for that. 54 of 58 people found the following review helpful. Try this one if you enjoy books set in another time and place- in this case 1881 Edinburgh. This is a great introduction into what looks as though it will be a good series as Ian, the protagonist, is a young man. He's chasing a very sick killer with the able assistance of his aunt Lillian (she's a hoot) and his colleagues, some of whom are better than others. You will read some of the story from the killer's perspective and beware that this has some dark and ugly parts. It's well written and plotted and genuinely entertaining. Thanks to Netgalley for the ARC. I read this in the summer but it would be especially good to read on a rainy day. 0 of 0 people found the following review helpful. Grabs your interest quickly. By Jo Ann Owen Good read; goes quickly. Interesting view of old Edinburgh. I plan on reading more of Carole Lawrence's novels and hope to learn more about Ian and Donald. Oh, let me not forget Bacchus. See all 33 customer reviews...
