There are so many big personalities in this book By Kristen Lewendon There are so many big personalities in this book. Most of them I couldn't quite decide whether it was love or hate. I also kept flipping my opinion back and forth several times with almost everyone. There was no question with Ethan, though; I loved him pretty much from the start. And I thought that he kept getting the short end of the stick. Ava drove me mental. I loved her when she was her sweet vulnerable self, it's when she behaves like a spoiled princess and throws a temper tantrum because she doesn't get her way that it's enough to make me want to write her off. I don't consider how much I love a character to be the ultimate mark of a talented author. For me, it's all in how much I can hate a character. To have all these characters that I can both love and hate - sometimes at the same time - that's what

made this such a good book. I received a complimentary advanced copy of this book. 4 of 5 people found the following review helpful. Ethan and Ava story starts years back when both secretly liked each other but never acted on it because it's his best friend's sister. So much has happened since that time. But the biggest thing the best friend's are no longer that. Enter a bump into each other to change the course Ethan and Ava life forever. Feelings and fears resurface. But the attraction truly never faded. These 2 are so perfect for each other. Both need each other to grow and really be happy. I personally like Ava at times she was young and immature but when she needed to grow up she takes the bull by the horns. I liked that she turned down Ethan proposal because she wanted him to prove he truly loved her. That was an amazing scene for both of them. Now Ethan is just amazing and his love for her and his family is awe inspiring. He goes so far to prove himself to so many people and ultimately to Ava that it will leave you loving him even more. This book is begging you to read it. I received an ARC for an honest and voluntarily review. 1 of 1 people found the following review helpful. Loved this book. Both heartbreaking and beautiful By Christy W. I voluntarily read and reviewed an advanced copy of this book WOW this was such a wonderful book, I loved Ethan and Ava, It starts out with Ethan and Aiden (Ava's brother) sitting by the pool drinking and Ava is about 18. Their parents are inside fighting about something. Fast forward 4 years Ava has just graduated from college and her and her best friend are at a symposium/employment conference handing out resumes and hoping for a job (well Bea is) When Ava happens to see the life size poster of Ethan who is giving a speech there. Bea knows that Ava has always had a huge crush on Ethan, When he sees Ava at first he does not recognize her but when he does realize who she is he cannot help but want to FINALLY mark her off his To Do list. What happens between them is both heartbreaking and beautiful. LOVED this book See all 86 customer reviews...
