The Gender War (book 4 of The Gender Game) By Amazon Customer I just love anything Bella Forrest writes. Her interpatation of this futurist world divided between two countries one run by women and the other by men has me on pins and needles. I don't know were you will take us next. This book shows women can be just a devious and mean as men. 0 of 0 people found the following review helpful. Quick read! By _ Mack Very entertaining book series. A touch of romantic relationships but no sex if you want to allow a teen to read the story. Fast paced and enjoyable without too much exposition or drawn out descriptions. 0 of 0 people found the following review helpful. The Gender War By Michelle Newsome The story continues to heat up as the war takes form. I love the dynamic between Violet and Viggo! The new characters on the scene really add to the story. A successful addition to The Gender Game. See all 416 customer reviews...
