Customer Reviews Most helpful customer reviews 0 of 0 people found the following review helpful. Love it !!! By greg cloud Great !!! Beautiful ! Well made , Great Information , Nice maps , Love it !!! 14 of 14 people found the following review helpful. Great Guide! By Anthony C. Let's be honest here... if you already played destiny 1 then you don't really need this guide. There is no hidden collectables in the game like the hidden ghosts in destiny 1 and the chests randomly spawn all over the world map. Instead we have scan objects for lore, and gold regional chests that are always in one location as well as all the hidden symbols can be found in this guide so it's not that useless. It's an online game game so don't expect much from the guide though. I mostly bought it just because it was a collectors edition, since I love collecting these guides. It does actually list strategy like an actual guide, from in game missions to the PvP stuff as well. Overall this guide does it job. 2 of 2 people found the following review helpful. Get the Prima e-guide if you need help By PCHarlow As a huge Destiny fan I really tried to like it. I've purchased so many Destiny collectibles and figured I'd add this to my collection. If you're getting it for game information then save the money and get the e-guide. The book provides very little information on anything other than the story. It's even missing some chest from the maps, all the information it provides on exotics and other gear is borderline disappointing, its missing so many. No secrets, no new information, nothing really exciting but "how to get through the self-explanatory story". Ill keep it as a collectors item, but I'll never open it again. I also hate that I couldn't pick the cover, I had a 33% chance to get the one I wanted..... I missed, but I did get the runner-up. See all 8 customer reviews...
