many amazing lists, in an easy to read format. The book itself is very portable making it easy to take with to appointments. I would recommend this book to any future bride regardless of how "in depth" they are involved with the planning process. 1 of 1 people found the following review helpful. Great tool for planning By Samantha Bought this as a gift, but after looking at it, I wish I had it for my wedding!! Great tool for planning!! 0 of 0 people found the following review helpful. Eh, it's OK By Elle0626 This book was OK. A LOT of the stuff in it is common sense unless you're clueless about weddings. If you have a wedding planner of a sort don't bother with this as MOST of the stuff in here is on Pinterest. If you are a person who needs things laid out in front of you, this is a good guide to go along with the use of their website. See all 241 customer reviews...
