99 cents for a limited time I rescued Sabrina from a mafia bloodbath when she was 13. As the new head of the Philly syndicate, I sent her to the best schools to keep her as far away from the life--and me--as possible. It worked perfectly. Until she turned 18. Until she came home. Until I realized that the timid girl was gone and in her place lived a smart mouth and a body that demanded my attention. I promised myself I'd resist her, for her own good. I lied. Nate is a full-length standalone.

Review Truly impressive, from cover to cover I was in love! -- BookTwins Reviews Nate, told from dual POVs, is a fast-paced suspenseful forbidden dark erotic romance. -- SueBee I promise you, I feel like I win the lotto every time I open a book from Celia Aaron. -- EscapeNBooks This author knows her genre and if you need a good action, drama-angst, sinfully hot scenes in the bedroom, then pick up this book NOW! -- Books & Boys Blog

Customer Reviews Most helpful customer reviews 0 of 0 people found the following review helpful. Loved it and worth the wait! Hope there's more in this series!!! By WishfulMiss The story picks up 5 years after Dark Protector. Nate has picked up the pieces of Vincent's underground kingdom and has become a ruthless but fair boss. He never sought out his position but Nate takes his responsibilities seriously and that includes protecting his people, going legit and making sure no one tries to muscle in on his territory. Things start to get tense between his crew and the Russians and before Nate knows it, they're in an all-out war. In the middle of all this, 18 year old Sabrina, fresh out of high school, is moving in and causing her on brand of chaos for Nate. Gone is the scared little girl he promised to keep safe and in her place is a woman who calls to Nate on a level he's never experienced before. When Sabrina's dark past comes back to wreck her, Nate finally admits no one else is equipped to keep Sabrina safe. Not when he would lay his life down for her. Things quickly

escalate and soon Nate and Sabrina are fighting a psychopath who threatens to rob them of their chance at true love. What I loved about it: Nate is a hard core boss now, calling all the shots, doing the dirty work when he needs too and taking the good and the ugly as his due. But C.A. kept him deliciously wicked naughty. I loved seeing his playful sexy side with Sabrina. I also really loved the role reverse here. Generally I like my guys to do the chasing but Sabrina's determination to go after what, or rather who she wants was very empowering. Rather than have Nate pursue Sabrina, we have him trying to protect her and Sabrina as the main aggressor. For being so young, Sabrina was a strong h, she knew what she felt in her heart, she knew who she wanted in her life and she didn't let anyone (let alone poor well-meaning Nate) stand in her way. This had great emotional growth, for both characters, but the inside look at the workings of Nate was note worthy. It was steamy as hell (the chemistry is off the charts here!) and had some really sweet moments too. Nate introduced some exciting secondary characters I hope we'll see again soon and a surprise cameo of Con! If you liked Dark Protector, Nate will be right up your alley. It still delivers in the action and suspense department and the villain here is darker and twistier than expected. I highly recommend this series? (Please let it be a series!) So far both books have blown me away! The possibility of getting more in depth stories of the rest of Nate's inner circle has me super excited! I'm talking about the Raven brothers and Angus here! Just an FYI: This isn't so much a complaint, more like a warning. This has some scenarios that might be triggers for some readers. Spoilers below. Favorite Lines: ...She's all in here." I pointed to a random spot on my chest. Just happened to be my heart. Coincidence. We spoke to each other on a level no one else could understand. Our souls had met five years ago and whispered about each other ever since. ...they judged me to be a prude. But they were wrong. My issue was simple: I didn't want a boy. I wanted a man. One man in particular. Memorable Moment: When Nate lets down his guard and we get to see the Nate of old... loved his sarcastic humor! 6 of 6 people found the following review helpful. Sabrina has grown into a beautiful young woman By Sassy Southern Book Blog My mind is blown at the sheer amazingness of this book. I've always considered Celia Aaron to be the queen of dark and twisted, and I can totally feel confident in saying she has absolutely slayed two mafia romance stories. Nate picks up right where Dark Protector left off, but it isn't necessary to read Dark Protector first. I would urge you to, as Dark Protector is also a solid 5 star read. Nate is Sabrina's guardian, after he rescues her from being taken yet again. Nate sends her off to boarding school and away from him, simply because he does not want Sabrina close to his life as a mob boss. When Sabrina comes back after graduating, Nate knows for sure he must now push her even further away. Sabrina has grown into a beautiful young woman, and it's hard for Nate to resist her blatant offerings of herself to him. After realizing Sabrina is indeed a woman and not a girl any more, their explosive chemistry puts them in the crosshairs of the bratva and Sabrina's past. Can the two survive all the action? I absolutely loved all the action in this book. Usually, I shy away from books with a lot of combat, but this kept me on the edge of my seat at all times. I also loved both Sabrina and Nate. Sabrina, though young, has been through so much, and it makes her that much more mature. She knows what she wants, and she's not afraid to say it. I actually fell in love with Nate and his witty remarks in Dark Protector, so it's no secret he was my absolute favorite in this story. His one liners are hilarious, and I often was laughing out loud at everything coming out of his mouth. This book was absolute perfection to me, it had everything you could ever want in a romance novel. - By Victoria 4 of 4 people found the following review helpful. Hot Hot Nate! By Miss Betty 4.5 stars Celia, Celia, Celia. You did it again. Blew my mind with lust, passion, blood, and gore. Nate Franco is the boss. He is hard and not afraid to kill if he has to. But he has one weak spot, and that spot is Sabrina. The little girl he saved five years ago and who he has made sure was safe growing up. But Sabrina has grown up to be a beautiful woman, and he is spellbound by her when she suddenly shows up in his house. Sabrina has been away on boarding school for five years. But now she has been accepted into college, and she has turned eighteen, and she is ready to blow Nate's mind. She hasn't thought of any other man for five years, and she wants him, badly. The only problem is that Nate thinks she doesn't fit into the rough and raw lifestyle he is living, but she will show him that she is perfect for him and his way of life. Celia writes a brilliant

story. The way she plays with the words turns me on like nothing else. I always think of the word wordgasm, when I read a Celia Aaron book, and she didn't disappoint this time either. She molds the characters into desirable persons, and I absolutely adore both Sabrina and Nate. Sabrina is a sassy young woman, who knows what she wants and isn't afraid to claim it. She is strong without losing her femininity, and she is a fresh breath of air. Nate was hot, with his firm hands and dirty mouth. He feels the responsibility heavy on his shoulders, but we still see glimpses of funny light Nate. The sex scenes were passionate and lustful. I can never get enough when Celia puts her dirty thoughts on paper. She does it to perfection. Nate is, despite the raw and violent mafia world, it's set in, a fairly light story. I'm so in love with the way Celia Aaron can make a raw and violent story into a joyride. The playfulness between the characters mixed with the seriousness of the mob world makes this feel like real entertainment for me. Thanks to the author for this hot and tantalizing advanced copy.
