Desperate to escape her tragic past, Sara Hawthorne packs up everything she owns and moves across the country to Seattle with her best friend Alexa. Everything seems to be going her way until a gorgeous stranger walks into her shop, turning her world upside down. Although Alek Devera is not the relationship type, everything changes once he comes face to face with Sara. Never having met someone quite like her, he starts to question everything he knows. She intrigues him. She challenges him. She threatens the secret he's been hiding for years. Will a promise made long ago be the very same thing that destroys their chance for happiness?

Ok By Mztinks I can not ignore the similarities to fifty shades of grey. I Found humor in that discovery(i was looking for something to read after 50). This book started out slow only to pick up at

the end and you have to get the next book. Looking forward to finishing the series. Still compared to 50 it is a solid 3 stars. 1 of 1 people found the following review helpful. Great trilogy!
