I can't really review this on her behalf, because I didn't read/use this book. But hey, she passed her course so this must work! 0 of 0 people found the following review helpful. A textbook with lots of good info in it By Bryan A textbook with lots of good info in it. Material isn't presented in any particularly innovative way, though. Pretty much like any other textbook you've ever read. 0 of 0 people found the following review helpful. however I must say I really like how it is written By Sam W I'm still in the process of using this book for my college class, however I must say I really like how it is written. It is easy to follow which is a must since my class is online. This book arrived very quickly and was in very good used condition, just as I expected. See all 66 customer reviews...
