About the Author Nivaldo Tro is a Professor of Chemistry at Westmont College in Santa Barbara, California, where he has been a faculty member since 1990. He received his Ph.D. in chemistry from Stanford University for work on developing and using optical techniques to study the adsorption and desorption of molecules to and from surfaces in ultrahigh vacuum. He then went on to the University of California at Berkeley, where he did postdoctoral research on ultrafast reaction dynamics in solution. Since coming to Westmont, Professor Tro has been awarded grants from the American Chemical Society Petroleum Research Fund, from Research Corporation, and from the National Science Foundation to study the dynamics of various processes occurring in thin adlayer films adsorbed on dielectric surfaces. He has been honored as Westmont's outstanding teacher of the year

three times and has also received the college's outstanding researcher of the year award. Professor Tro lives in Santa Barbara with his wife, Ann, and their four children, Michael, Ali, Kyle, and Kaden. In his leisure time, Professor Tro enjoys surfing, mountain biking, being outdoors with his family, and reading good books to his children.

Customer Reviews Most helpful customer reviews 159 of 165 people found the following review helpful. Get the first edition. By triple0triple1 I have just bought this brand new 3rd edition and compared it with my 1st edition. They are almost exactly the same, even down to the page numbers. This is an old scam by textbook publishers, but usually they will at least change around the table of contents and put in new diagrams, photos and tables. Not so with this title. And if the 1st and 3rd editions are almost exact copies, then I'm sure the 2nd edition would be fine too. Also, do not think that you need to buy the "Custom Edition" for your school, it's just the campus bookstore's and publisher's way of keeping you off Amazon and charging you double for an already overpriced book. 0 of 0 people found the following review helpful. Five Stars By larry pettaway Text arrived in excellent condition and as promised. Book purchased for our grandson... 0 of 0 people found the following review helpful. Great Arrival By Anancite Textbook came slightly damaged and some pages were bent and ripped (it seemed like a manufacturing error due to the fact that the pages were larger than the rest) but I received them quickly and at an amazing price. Renting this textbook is worth it. See all 550 customer reviews...
