Review This book from Sarah J. Brooks is definitely a 10 stars book. This book will touch you right down to your soul / your core at the first few paragraphs. You are in for an epic adventure: and epic is the journey through Breaking the Rules. Amazon Customer Review I have read 4 books by Sarah J. Brooks and love them all. This is my fifth and is no exemption. With all certainty I can say is her best work to this day. This book got me excited in many ways! You want to talk with the characters, hit them, be their friend and also their lover (hahahaha shhh).Amazon Customer Review This was a very engaging read for me. The plot is riddled with twists that keep you guessing. The characters were well described. An enjoyable, recommended read. Amazon Customer Review This story keeps

you on your toes. Everytime you think you know what's going to happen next , you are completely wrong. This story will make you cry, laugh and sad. It truly feels so real like an everyday life story. Again Sarah J. Brooks you have really out done yourself with this one. Amazon Customer Review I was pleasantly surprised by an overwhelming depth that almost from the beginning will have you established a strong connection with the characters whom are exceptionally well developed. The story plot is raw, gripping, entralling and consuming. Once you start reading this book, it's practically impossible to put it down. In what can be considered a monotonous world of romance, Sarah J. Brooks brings a fresh, gripping, up beat and at times heartwrenching perspective that is reinvigorating and exhilarating. By Jackie What a plot twisting, full on frustrating, sweet heat, flirtatious, playful funny, romanced up read! This is one of those books- once I started there was no stopping me from finishing this crazy frustrating hot maddening love adventure! I was all over the place with my feelings for these characters, one minute I was rooting for them the next I am saying- RUN the heck away from _____! Then, I would think I know who is making the threatening calls; then I'd be changing my mind couple pages later- pure madness! I LOVED IT! Sexy, fun. With light angst, detailed, with romance blooming throughout novel- I fully enjoyed! Another great book by Sarah J. Brooks #mustread I voluntarily read an advance readers copy of this book *I have to say tho- If Mr. big shot River had thrown a temper tantrum like that at me... He would have had to give a much larger apology than she was given. For Example: Like my own private Island with lots of drinks with the little umbrellas and a cabana boy- kind of sorry. * I am just sayn' * 1 of 1 people found the following review helpful. Mariah Waves works at her father's public relations firm when she lands River Anders as her first client. Finds herself with her first client. River is a hardworking successful businessman who stays clear of relationships so that no one gets hurt. He is in need of a PR firm's services because someone is threatening him with a secret he has kept hidden for 10 years. The attraction between River and Mariah is instant and intense. River has had to work hard to be the successful man that he is today and wasn't particularly looking for love. However, Mariah touches his soul in a way that he can't, nor does he want to, deny their connection, their unbreakable bond. River and Mariah have to work together to try to figure out who is trying to reveal the secret but the secret is out, provoking a storm that River and Mariah might not be able to withstand..... To find out what happens, pick up your copy today. You will not regret it..... I voluntarily submitted an ARC review for this book. 1 of 1 people found the following review helpful. I loved every minute of this book. By R. J. Sorretto My first thoughts-- Oh...kay... It's official. My teeth are bared, my hackles are raised, and I am ready for River to walk in and take Mariah's high-and-mighty father down a peg or two. And Mariah, for crying out loud. Grow. A. Spine. Thank goodness you have Elizabeth as a best friend. And then the next thing I know, I am howling with laughter as I try to read through Mariah and River's first "business dinner"... (it's hard to read when you're laughing so hard you have to close your eyes). Got a business meeting? Take a drink... Mad at your potential client? Take a drink! OMG, I am dying here! And just what is River's big secret, anyway?? But, even after I find out... the mystery still goes on. Well, okay. I'm not much of a sleuth, but this one has me stumped. Meantime, things just keep getting hotter between River and Mariah. Because some things are meant to be. Bottom line: I loved every minute of this book. 5 stars. See all 175
